Meeting – May 1, 2001

Came to the Chancery to reiterate his innocence , angry that we believe “her” and not him. Not pleased that the RCAB is not defending him and he has to find his own legal representation. I reminded him that he has been inactive for 21 years and that was not the reason we are requesting he seek his own legal representation. Was looking for information concerning the present address of victim and parents so he can communicate with them. I informed him that this was not possible and that any communication needed to be done by means of lawyers. Meeting ended at 10:30 am.
