Fr. McCormick now Bishop McCormick was a curate at St. James Parish in the 60's. As an altar boy and a 5th grade student I was abused by Fr. Joseph Birmingham starting the fall of 1964 until the fall of 1969 over a period of 5 years. This abuse consisted oral sex, kissing, masturbation and attempted rape on several occasions. The oral sex and masturbation and kissing happened over a hundred times during those years. This happened in the school guidance rooms, the church Sacristy, the rectory, in his car, on ski trips, trips out west, trips to Nantasket beach, Hampton Beach, at the boys camp I attended, in my own home. I could not escape this man.

While in the St. James Rectory on the second floor in Fr Birmingham's room where I was abused several times I remember distinctly seeing Fr. Birmingham carrying ice cream to his room for me talking to Fr. McCormick and both of them looking at me in the room on the bed.

This happened several times. Fr. McCormick would see me in the Rectory on the second floor with Birmingham. There is on denying this!!!
