Dear Sculley,

It is with deep regret that I impart the following information.

There is a priest at St. Paul's in Rochester who has been known in the past to molest boys.

The local representatives there for treatment and after returning to Rochester, he maintained a low profile for quite a while. Recently, however, he has been seen in the company of many boys, to the extent of bringing them off at their homes as late as 9:30 pm.

One family in my church, settled in the church with a firm letter from St. Paul's. We do not accept this priest by name. Since we are all sinners, but within we speak him as a priest.

There are many neighbors and grandchildren had dealings with the priest. Some certain of these facts.

My heart is broken over the whole situation and it is a burden to me to convey since I am trying to keep a lid on the anger of family members: a very real fear of the disgrace this would bring to the church, to all good priests, and finally, but most importantly, my fellow members in this body of Christ who are left in the dark as to the danger their children are in, while I have knowledge of the truth.

My heart also breaks, that my first offering to you, is this cry of better wise with my tears.

And so, it is to you my dear friend Sculley,
that I pass this burden with hope and trust.

Respectfully,

[Signature]
